PRODUCT DESCRIPTION

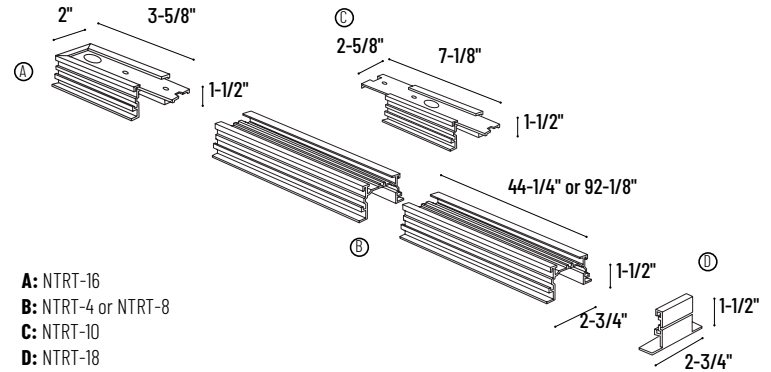

This system is designed for use with Nora 1-circuit (NT-300 Series) or 2-circuit (NT-2300 Series) track. The extruded aluminum housing is mounted into the ceiling cavity which allows for flush installation of the track system to any style of ceiling.

SPECIFICATION

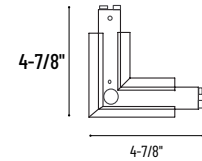

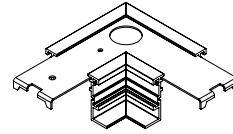

Construction: System components are extruded aluminum finished in White or Black to match Nora Track.

INSTALLATION

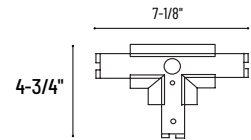

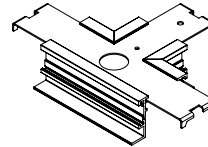

Each installation will vary based on ceiling make up. All mounting hardware is provided for installation finishing to drywall or suspended ceilings. Hardware included may not meet all installation requirements. Additional framing may be required in some hard ceiling applications. Spacers are supplied with NTRT-4 and NTRT-8 to adjust for thickness of single or 2-circuit track.
