

Wi-Fi Control Module (WP100PBA)

Experience an effortless balanced ventilation solution that meets code requirements, complete with Fault Indicator Display requirements

The new Wi-Fi Control Module enables easy installation of an effective balanced ventilation solution. This smart solution synchronizes WhisperGreen® Select (exhaust fan), WhisperFresh® Select (supply fan), and WhisperFresh® Plus (supply fan) for optimal airflow, healthier indoor air quality, and maximum energy efficiency. Exceed green building and ventilation codes with confidence, including ASHRAE 62.2 & California Title 24.

Swidget® Mobile App

Our user-friendly app displays real-time operating status and power usage. Additionally, it supports independent control of a single fan through the modules in either WhisperGreen® Select, WhisperFresh® Select, or WhisperFresh® Plus Fans, and BalancedHome® Energy Recovery Ventilators Elite and Elite Plus+ models to optimize airflow seamlessly.

Build healthier. Build beyond code

- Ensure to achieve balanced ventilation and Fault Indicator Display (FID) code requirements
- No additional wiring; plug in the Wi-Fi module and set up via the Swidget® app to connect and communicate

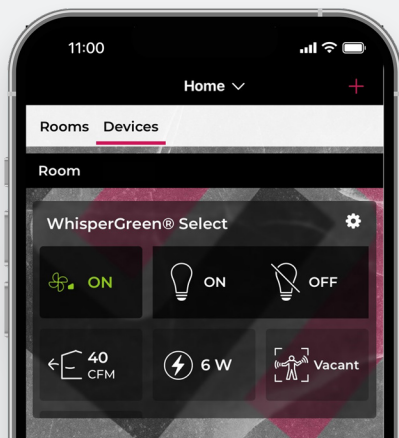

Enhanced homeowner experience

Maintain healthy indoor air quality – all from the mobile app:

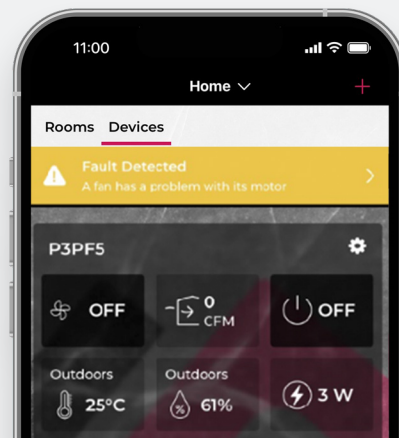

- Receive alerts for filter replacement and maintenance requirements
- View operating status and power consumption
- Turn on/off fans, timer, lights on/off, fan speed

Worry-free solution to address poor indoor air quality

- Automatically activate and operate fans with Wi-Fi Control Module and (optional) Swidget® devices and sensors

Control your fans from the Swidget® app at your fingertips – fan speed, lights on/off, timers and more.

The Fault Indicator Display (FID) notifies you when filter maintenance is needed or when there is low supply or exhaust airflow.

The Swidget® app is available on the Apple App Store and Google Play
